

## SUMMER GIRL'S ATTIRE.

Afternoon Gown—Shirt Waist the Staunch Friend of Women.

### QUAINT EFFECTS IN LACES.

The summer girl's outfit must necessarily be chosen with a view to her plans for the summer and the lavishness of her dress allowance; and fortunately for her who must select a moderate outfit never has individuality of taste had such freedom and never were delightful effects within the possibilities, at lower cost.

Of course the afternoon gown which runs the gamut of thin materials from the most expensive laces to the simplest organdies must first be considered, but in apportioning her expenditures for the summer milady should remember that the elaborate garden party style of frock is not, as formerly, the only afternoon gown required. Now that it is so fashionable to live out of doors the greater part of the time, quite a different style of dress is necessary.

Most appropriate for afternoon wear are the so-called tailor-made costumes of light weight cloth, mohair or linen.

Linen is the leader of fabrics, particularly for shirt waists and there is no longer any doubt of the shirt waist holding its own. For many seasons we have heard the prophecy that the separate blouse is doomed, but, as the moralist puts it, "True merit will tell" and the fact that after at least five seasons the separate waist is still with us is surely proof of its desirability.

At the races I saw two models of styles in frocks most in vogue for a fashionable outfit. One which I have depicted for you in my illustration is of dark blue trimmed in a darker shade of fancy braid and is worn with a white linen Forsythe waist, exquisitely hand-embroidered in a delicate, refined design, and which lends distinction to the handsome gown.

The lithe, graceful figure owes not a little of its effect to the new model C. B. a la Sprite corset, designed especially to meet this season's styles, and recommended by all dressmakers for women of fashion as the best suited to the present mode of gowns.

Another was a cream-white peau de crepe, a charming model of the afternoon gown which offers such immense possibilities for the mingling of different kinds of lace in a single costume

—incrustations, insets, and medallions being used with wide license for individuality of treatment.

REV. SAM P. JONES

Says Outlook for Crops Are Bad All Over the Southern States.

"Democrats would save time and whisky by not holding any national convention in 1904," said Rev. Sam P. Jones Tuesday to a Nashville Banner reporter, while waiting in the Union Station at Nashville for the train.

"Politics, Roosevelt, Cleveland and everything else dimes into secondary importance, however, and the most serious question which now now confronts the people of the United States is the crop outlook.

"On my tour I have traveled through the West, the western South, the South and Southeast, and never in my experience have I seen such a poor outlook for the agricultural interests of the country at this season of year. The large flood swept areas are just desolate; that's all there is to it. The people haven't enough to live on, and starvation times will visit large portions of the country before another harvest comes and enables the farmers and country people to recover to some extent from their losses."

"The wheat crop is way below the average. In parts of Kentucky, Tennessee and Southern Indiana and Illinois the yield will be normal, but the fields which will produce only 30 to 60 per cent, far outweigh the good fields in number. Large numbers of the population in the states where I have been will be in distress all next winter and the actual suffering will not be confined to a few. Corn is backward and looks sickly, and cotton is not thriving any more than corn."

"When I contemplate all I have seen in the different sections, I have a sensation of pity for the stricken communities."

The Man Who Hung the Jury in the Jett Case at Jackson.

Burns Fitzpatrick was the man who hung the jury in the Jett case at Jackson a few weeks ago.

Fitzpatrick, with two brothers, Sevilian and James, are under indictment in the U. S. Court for conspiracy to defraud the government. It developed in a trial before the Commissioner at Prestonsburg that they gave to an ignorant old man by the name of David Cobert a lot of whisky, and afterwards bought it back from him. Then, one of them swore out a warrant for Cobert, and had himself and the other two named as witnesses, their purpose being to get the witness fees, mileage, etc. Cobert was dismissed.

This occurred in 1897. The brothers have not been tried because the prosecuting witness, Cobert, has been spirited away.

Is it any wonder that the jury hung?—Winchester Sun-Sentinel.

## BIG BUILDINGS

For Live Stock at the Kentucky State Fair.

Owensboro Making Great Preparations for the Big Fall Attraction.

The preparations now in progress both at the Louisville headquarters and at Owensboro indicate that the State Fair which begins at Owensboro on September 21 will be the biggest event of the kind ever attempted south of the Ohio river.

Aside from the long and splendid list of free amusements, to which has now been added the famous Dr. Carver and his show, and also races, without pool selling, the Fair will be an education to all persons interested in live stock, agriculture, horticulture, mining and household work.

Contracts have just been let for nine cattle barns with a capacity of 800 cattle; five stables with a capacity of 500 horses; two buildings with a capacity of 300 sheep; two buildings with a capacity of 400 swine; one poultry house with a capacity of 1,500 birds; one mineral exhibition, which is a new feature, and one office building. The amphitheatre has a capacity of 10,000 and is one of the largest in the United States.

### L. AND N. BREAKS A RECORD.

In Twenty-Four Hours, 133 Cars of Perishable Fruit Are Handled.

The Louisville and Nashville Railroad broke a record in the twenty-four hours that ended at midnight by handling 133 cars of stock—bananas, watermelons and other fruit—on the Bowling Green and Louisville division. All of the 133 cars came into Louisville from the South, and will be distributed from there to all parts of the United States.

The 133 cars were what is called "live" freight, and are considered extra traffic. All of the regular freight, coal, stone and thousands of cars of "dead," or non-perishable freight was handled as usual. The "live" freight had to be kept moving because of its valuable and perishable nature, and to handle the record-breaking number of cars and also keep the other freight going imposed a severe task on the freight agents and employees.

### 12 Year Old Whiskey in 12 Hours.

An exchange says a Louisville distillery has adopted a new system by which whiskey is made "from ten to twenty years" in less than twelve hours' time. This is getting things down pretty fine, truly. It is about as hard to find a drink of genuine, good whiskey as it is to find an honest man these days. Back in the good old days they made whiskey to drink, now they make it to sell, or, properly speaking, to kill. Only ten or twelve years ago a fellow could get a fair nip occasionally, which would make him think he owned the earth and the fullness thereof, but to-day—well, a teaspoonful will make a man throw rocks at his great-grandmother. In other words, it used to be a "loving drunk," today it's a "fighting drunk."

Last Tuesday Mr. Williams sent to Glasgow for half a gallon of medicine, which he had to have at once, says the Spottsville Enterprise. It was being brought over on the mail stage, and arrived safely as far as Lucas. There Church Bishop decided it looked well and might be "fire water," so the box was opened and a pint placed between his ribs. The medicine contained poison and a dose was only a teaspoonful. It took the doctors some time to keep Mr. Bishop from dying.

## HOW PROHIBITION WORKS

In Trenton, Tenn., a Town of 4,000 Inhabitants and the County Seat of Gibson County.

Those prophets of evil, who predicted calamity for the town when the sale of whisky was stopped, are not in evidence these days. The town has not been hurt, but has been benefited. Money that was formerly spent for whisky by those who could ill afford to spend it is now spent for the benefit of wives and children. Men who never came to town on public days and went home sober, now come and return to their families sober and happy. The frequent broils and fights that went to make up "first Monday" are now things of the past. Three months without saloons in Trenton is enough to convince the most skeptical that the open saloon is a curse to any community.—Trenton Herald-Democrat.

### The Midsummer Fashions.

Sun-plats are the season's novelty and characterize both walking and trailing skirts.

Many of the smartest afternoon gowns are made of voile. There are voiles in checked, striped, plaided and dotted weaves, and a novelty shows silky white hairs over the surface.

Next to the skirt and coat costume, and every woman considers at least one shirt waist gown of light weight wool or silk a necessary addition to her ordinary street frocks. The smartest of these frocks are made of linens and linen canvas, with braid and buttons for ornamentation.

The long, loose coat has proved itself so desirable a garment that it is included in every well-appointed outfit, being made of thin French cloth, linen, canvas, brilliantine and satin. Coarse linen canvas coats are worn not only with skirts to match but afford the desired protection to thin summer dresses.

There are beautiful stocks of heavy washing materials, with medallions of lace let in, embroidered designs and fancy stitching for ornamentation; others are relieved from plainness by a line of narrow piping in color or about the edge. Pearl buttons or studs are used to fasten some of the daintiest of these. Long scarfs of silk crepe or linen gauze are the prevailing fashion, and their success lies in the manner in which they are tied.

Nothing in dress is of greater importance than the footwear, which must not only be comfortable but fashionable and must accord with the costume and occasion upon which it is worn.—From the Delineator for August.

### AIR LINE

Between St. Louis, Nashville and Hopkintonville.

The Press is informed by Illinois Central officials that preliminary work has already been ordered at Cave-in-Rock for the slip for a transfer boat between the Illinois and Kentucky shores of the Ohio river, to be used until the bridge is completed. All of the bridges between Princeton and Hopkinsville are being tested as to their strength for heavy trains on the through Nashville and St. Louis Air Line via Marion and Cave-in-Rock.

The building of the railroad between Marion and the Ohio river to St. Louis has been decided upon absolutely.—The Crittenden Press.

## HOPKINS COUNTY REPUBLICANS

Convention Strongly Indorses Judge Pratt and Sends Instructed Delegation.

R. R. GRAHAM DECLINES THE NOMINATION FOR LEGISLATURE.

The Republicans of Hopkins county met in mass convention at court house in Madisonville pursuant to call of State Committee and of County Chairman. It was called to order by J. B. Harvey, Chairman of the County Committee. Temporary organization was effected by electing W. P. Scott Chairman and C. H. Murphy Secretary. Said temporary organization was made permanent. On motion the Chair appointed a Committee on Resolutions, namely: Dr. T. W. Gardner, Ben T. Robinson, L. A. Teague, William Beard, T. E. Finley, Lawrence Rodgers and C. J. Waddill, which Committee reported the following resolutions:

"We, Republicans of Hopkins county, in mass convention assembled, renew our loyalty to the Republican party and rejoice in the prosperity of the country under its beneficent rule. We heartily endorse its wise and patriotic administration of President Roosevelt. We feel a deep interest in the welfare of our great state and we desire its redemption and restoration to the high place it rightfully deserves amid the sisterhood of states. We pray for a great harmonious State Convention, and the nomination of worthy candidates upon a broad, clean Republican platform that will appeal to the good judgment of our best citizens. We express our high regard for and supreme confidence in our distinguished citizen and beloved brother, Judge Clifton J. Pratt. We know him to be worthy of the high office of Governor and that he will make an ideal candidate for our party. Gifted as a public speaker, a trained lawyer, an able judge, a tried official, a true friend of the people, and of irreproachable character, we commend him to the Republicans of Kentucky for the good of our party and the welfare of our State as our matchless leader who will bring us to victory.

"The delegates selected by this Convention are instructed to vote for and to use all honorable efforts to secure the nomination of Judge Clifton J. Pratt as Republican Candidate for Governor."

The following gentlemen are elected as Delegates to represent Hopkins county in the State Convention at Louisville:

### DELEGATES.

W. P. Scott, T. W. Gardner, J. C. Bacon, R. J. Salmon, Lawrence Rodgers, M. D. Brown, M. J. Clark, T. E. Finley, R. R. Graham, Chas. Ashby, J. G. Foley, Chas. Robinson, Wm. Lynch, John Taylor, Ben T. Robinson, Hayes Jones, Purd Lutz, C. H. Patterson, Dr. T. D. Benlow, Odie Davis, George C. Atkinson, Lawson Reno, Alex. Mitheson, Rev. I. N. Seletman, Simon Danlap, James Ashby, Balch Robinson, C. J. Waddill, J. McEwen, Wm. Beard, L. A. Teague and all other Republicans and good citizens of Hopkins county who will stand up for old Kentucky by voting the Republican ticket.

Dr. T. W. GARDNER, Chm.

Said resolutions were unanimously adopted. On motion of T. E. Finley, seconded by Ben T. Robinson, the Hon. R. R. Graham was unanimously nominated as the Candidate of the Republican party for the office of Representative of Hopkins county in the General Assembly of Kentucky. His name will appear on the official ballots at the regular November election, 1906, in the list of Republicans who stand under the regular device of the Republican party. Hon. R. R. Graham being present accepted such nomination. The Convention was large, harmonious and enthusiastic.

Witness our signatures as Chairman and Secretary of the Convention this July 11, 1903.

WILL P. SCOTT, Chm.

C. H. MURPHY, Sec.

### RESPECTFULLY DECLINES.

Mr. Graham Will Not Accept the Nomination for Representative—His Reasons Are Personal Ones.

To J. B. Harvey and Members of the Hopkins County Republican Committee:

The republican county convention, held at Madisonville July 11, 1903, tendered me the nomination as rep-

ublican candidate for the office of representative, for which I am truly thankful. I then hoped I would be able to accept your nomination, but I find it impossible to do so and feel it my duty to notify you and the Republicans of Hopkins county promptly. My reasons for declining are purely personal, but are imperative. I feel sure that the republicans will carry Hopkins this year, and I am certain you can easily supply my place with a strong acceptable candidate to lead us to victory. I will do all in my power to aid my party. Expressing sincere regret that I cannot serve you and hoping for abundant success for our party, I am, Yours truly,

R. R. GRAHAM.

### BIG TIME AT DAWSON SPAINS.

County Attorneys Hold Sham Trial, In Which Geo. M. Price Is Defendant in a Breach of Promise Suit.

Dawson, Ky., July 11.—The Kentucky County Attorneys' Association met at the New Century according to program. Among those present were H. F. Reenley, M. B. Shaw, and H. M. Kearby, Hickman; W. T. Davis, and wife, Pineville; W. O. Davis, Versailles; W. P. Kimball, Lexington; Harvey Ham, Stanford; J. Cobb, Richmond; Jacob Corbett and wife, Ballard county; L. A. Forrest, Elizabethtown; C. F. Thomas, Mt. Sterling; T. L. Wallace, Mayfield; La Vega Clements, Owensboro; D. H. Kincheole, Calhoun; James Garnett, Jr., Columbia; Marl Williams, Hodgenville, and Denny P. Smith, Cadiz.

The court of justice, which was presided over last night by the Hon. Pres. Kimball, in a suit for breach of promise which was brought by Miss Lillian Gary, of Hopkinsville, against George M. Price, of this city. Mr. Price was wholly unaware of the proceedings against him until he was arrested and taken before Judge Kimball, and, being an old bachelor, it was very embarrassing to be brought face to face with so serious a charge before a room full of spectators. Miss Gary carried out her part to perfection, as did all the witnesses. Strong speeches were made by the attorneys on both sides of the case. The damages to Miss Gary's affections, etc., her attorney claimed, were \$51,000. The jury returned a verdict of guilty and called on Mr. Price to set 'em up to the cream.

The sham trial was interesting throughout and was held in the spacious dining-room of the New Century by the attorneys for the benefit and amusement of the public. The meeting has been a good one and Dawson did herself royal for the entertainment of the legal lights.

### THE MISSES CRENSHAW ENTERTAIN

At Lakeside Park Friday Night in Honor of Their Visitors.

Misses Carrie and Lucile Crenshaw gave a delightful entertainment at Lakeside Park Friday night in honor of their visitors. Misses Eulah and Margaret Richards, of Hopkinsville. After partaking of a bountiful repast the merry-makers passed the time in boating, dancing and other amusements until the cock's shrill clarion warned them it was approaching the hour of midnight and the tired but happy revelers regretfully tore themselves away from Loch Mary's silvery shore. Those present were, Miss Annie Ashby, Miss Martha Purrell, of Lafayette, Ky., Miss Alice Johnson, of Philadelphia, Miss Laura Norwood, of Lexington, Misses Eula and Margaret Richards, of Hopkinsville, Miss Florence McGregor, of St. Charles, Mrs. W. S. McGary, Miss Anna Rice, Mrs. Dr. Sisk, Mrs. Mike Long; Tom Trubner, B. Southworth, Mr. Randolph, David Burr, Ben Rash, Claude, of Paducah, Pat Mitchell, Dr. A. O. Sisk and W. S. McGary.

This famous remedy does for the stomach what it is unable to do for itself, even if but slightly disordered or overburdened.

**Kodol**  
supplied the natural juices of digestion to the weak and does the work of the stomach, relaxing the nervous tension, soothes the inflamed muscles and membranes of the stomach, and allows the organs to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

L. E. Thomas, head salesman for the firm of J. A. Ledbetter, Jr., Cave-In-Rock, Ill., said of Hill's Specific: "I take pleasure in stating that I consider Hill's Specific superior to any remedy for bowel complaint that I ever used or sold. Many dealers say this after selling this great medicine, and watching its merits. Price 25c; for sale every where."

How pleasing it is to contemplate the unworldly innocence of a Boston boy of eight who found a \$20 bill in an ash barrel the other day and sold it to another boy—unknown—for 25 cents!

I have practiced medicine for 30 years and have consulted the leading physicians in the country in regard to a remedy for Dyspepsia. I have never been able to find anything that would cure it. I used Kodol Dyspepsia Cure, and I have suffered with stomach trouble for years. Could not eat anything but milk twice for months, but since I used Kodol I can eat anything and feel that my health is better than it ever was in my life. I cannot say enough for Kodol for it has saved my life and I know that it will cure any case of Dyspepsia if taken as directed.—M. D. Settle, M. D., Big Hill, Ky.

Catarrh of the Stomach.

When the stomach is overloaded, when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, causing pain, indigestion, eructation, and the natural juices of digestion. This is called Catarrh of the Stomach. I suggest with Catarrh of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.—J. R. ## Paine's Celery Compound

Permanently Cures Sick and Nervous Headaches that Make Life Miserable.

Sick and nervous headaches are amongst the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life bearing a load of misery and wretchedness that is terrible to think of.

Headaches as a rule, result from a disordered condition of the nervous system. Mental excitation, loss of sleep, bodily fatigue, and disordered digestion are exciting causes. When the brain becomes tired and debilitated, the whole nervous system is weakened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headache invariably follows. To cure and prevent headache, the nervous system must be strengthened and vitalized. The most persistent cases of headache, nervous feebleness, and sleeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructer of the nervous system.

"I have been troubled with dyspepsia and sick headache for a number of years. About every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

## LOCOMOTIVE BLASTS

Fireman H. T. Mulvaney will leave in a few days for Parkersburg, W. Va., where he will spend July and August with his mother, who is in very poor health.

Engineer Carl Ward and fireman Theodore Schmidt are again on the pile driver this year, making their fifth term.

We are glad to learn that M. F. DeJanatt, the old Henderson Division time keeper is again in our vicinity. He left a good position at Montgomery, Ala., with the L. & N. to accept a better one in the Evansville custom house.

William Deveney, formerly with the L. & N. at Evansville, has recently been appointed train master of the Missouri & Southern Construction Co. at Cape Girardeau, Mo.

Thomas Walsh went to St. Louis, Mo. last week on important business. He was confined to his room for several days after his return on account of illness.

The Woodward & Tiernan Relief Society of St. Louis, Mo., ran two special trains over the L. & N. Saturday July 11th from St. Louis to Priests Park, Ill.

Mrs. M. W. Halbert and children, whose husband and father is the assistant of Chief Joint Car Inspector Chas. Waugh at E. St. Louis, Ill., will spend the summer at Clarksville, Tenn. with relatives.

Mrs. Eugene Covert and mother of Howell have gone to Denver, Col., to spend the summer.

Frank Gough, the Earlington Round House caller, has resigned.

Mr. F. O. Walsh has purchased the finest family horse it was possible for Mr. Henry Martz, an S. D. engineer, who owns a fine stock farm, to find in the state of Illinois. The horse is very gentle and at the same time capable of covering twenty miles an hour, it is claimed. The people of Montgomery, Ala., will open their eyes when they see this animal driven through their streets.

L. L. Patterson has recovered from the injuries received in the wreck of the new Providence train near Madisonville the first of last month.

Fireman Curtis Smith of the H. D. has resigned.

Chas. Reddix, oil house tender at Howell, went to Montgomery, Ala., this week on business.

One of the firemen on the St. Louis Division who belongs to the Evansville Militia was in E. St. Louis working in the yard when the call for the militia was issued to protect the county jail at that place from the mob intent on having the life of the negro who killed policeman Massey July 3rd. The railroad company could not see its way to relieve this militiaman from duty, and he was therefore robbed of the chance to do some shooting on the night of the 6th, when the militia played havoc with the mob. Among the several injured were two employees of the Howell shops.

The Howell shops were closed all day last Friday on account of the funeral of the late Superintendent of Machinery, Pulaski Leeds, who was assassinated by George B. Warner, a discharged employee, Monday July 6th. Quite a number of representative men of the shops and road men attended the funeral. The floral offering of the Howell shops was one of the most elaborate, artistic and expensive ever gotten up in Evansville, from where it was shipped to Louisville by express.

F. M. Vanwinkle, who has

been foreman of the planing mill at Howell since the erection of the shops, has resigned. He is succeeded in that capacity by Albert Schoenlaub.

Fireman C. E. Shaw is off for a short time with a slight injury.

William Goff, who formerly was caller at Nashville, and recently employed in the Howell store room, is now caller at Earlington.

A. C. Beall, the Guthrie switch dresser, who has been on the sick list for sometime, has gone to St. Louis, Mo., where he intends to spend a month with relatives.

An Illinois Central freight train switching in the yards in Ashley, Ill., Sunday night backed into an L. & N. train standing on the crossing, striking a car loaded with corn. The car was thrown against the tower house. The car was completely wrecked and shelled corn was poured out on the ground. It required a half day for the section men from Ashley and Beaumont to shovel up the corn, put it in sacks and re-load it in another car.

The Newman act which was passed by the last Legislature to prohibit railroad employees living in Indiana from having their earnings attached or garnished in this state, was held to be constitutional by Judge Emmett Field.

The Illinois Central Railroad company's bridge over the Tennessee river, twenty miles this side of Paducah, caught fire at 10 o'clock Saturday morning. Two spans of the bridge were burned. The passengers will have to be transferred by ferry for several days. Blaze originated by birds' nests in the bridge catching fire.

New York, July 9.—At the meeting of the board of the Louisville and Nashville Railroad company today August Belmont resigned as chairman of the board. The directors declared the regular semi-annual dividends of 2½ per cent. Henry Walters was unanimously chosen elected chairman of the board.

The Elizabethtown News says: Muldraugh's Hill, as is generally known, is famous for wrecks. It is impossible to enumerate the number of wrecks which have occurred there. There have been three recently, one of which was most serious and costly. The most wonderful accident which occurred there took place Monday. An empty oil car in the center of a long, heavily loaded freight train, which was running at a high rate of speed, suddenly jumped the track, leaping clear of the rails and turning over on the side of the embankment. The wonderful physics of the accident is that the railing and roadbed gave no evidence in the way of injury, even to the gravel on the side of the track remained undisturbed. The crew at once closed the gap in the train by coupling up the two divisions, the couplings being uninjured, and immediately left the scene of the accident. It is the general impression among the railroad employees that Muldraugh's Hill is hoodooed, and the crews of the trains which pass over it are always on the lookout for some accident.

**German Syrup.**  
We want to impress on our readers that Boecher's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specific, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasms of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectation in the morning with speedy and permanent relief. Small bottles, 25 cents; larger bottles, 50 cents, containing nearly four times as much, 75 cents. At all druggists.

## GOING HOME.

BLUE G. BARD.

The winter rain was falling fast. As through a Texas town there passed An outfit bound for Arkansas. The man was slim and gaunt and tall. The woman spare and pale and small. They had traveled all that day. The wagon evidenced decay. The team betrayed a lack of hay.

The children looked unwashed and glum. As children do in the city's slum. The whole layout was on the bum. Not a word by them was spoken. Not a sound or sign or token. The deep silence was unbroken. Save the squeaking of the wagon As their weary way they drag on. For the man he had a jar on And was sleeping on the floor— Sleeping with a heavy snore— As he had never slept before.

Engraved upon the wagon sheet Was this legend and so sweet, Shining through the snow and sleet: "We are going home, pa expects us. Going back where nought can vex us. Good by all and—old Texas."

## EXCURSION TO SEASHORE.

Through Train Service Arranged for by the Henderson Route.

The annual low rate excursion to Atlantic City of the Henderson Route in connection with L. & N. Pennsylvania Lines from Louisville, promises to be the most successful excursion ever given to this popular resort.

Arrangements have been made for free reclining chair cars to be attached to Henderson Route train No. 42 leaving Evansville at 7:00 a. m., Thursday morning, August 6, to run through to Cincinnati, thus avoiding any delay or transfer at Louisville. At Louisville, connection will be made with L. & N. Pennsylvania special train which leaves that point at 1:00 p. m., running through to Atlantic City without change of cars, arriving at the seashore 3:00 p. m., Aug. 7th.

This special train will consist of the finest equipment: sleepers, coaches and chair cars being all of wide vestibule pattern, and will prove a popular train for Indiana and Kentucky pleasure seekers who intend to take in the seashore this summer.

Tickets are on sale for morning trains of August 6, good returning until August 18.

Sleeping car reservations and full information can be secured from any representative of the Henderson Route.

## How Cheap Baking Powder is Made.

A recent seizure of a lot of "cheap" baking powders by the authorities of a neighboring city has exposed the character of the low priced brands of baking powders which many manufacturers are offering throughout the country. The price of the powders first attracted attention to them. Samples were taken and analyzed. The official report of the analysis showed the stuff to be "alum powders," composed chiefly of alum, sulphuric acid and pulverized rock. The powders were declared dangerous to health and several thousand pounds were confiscated and destroyed.

Physicians have frequently cautioned consumers against mixing food with these so-called "cheap" baking powders. They are all found, when analyzed, to contain large percentages of alum and sulphuric acid, to which are added various sorts of filling matter, sometimes both injurious and nasty.

The high class, cream of tartar baking powders, are the most economical and wholesome and should always be selected for use. They will be found cheaper in the end, besides making the food better and more healthful.

Which side the United States will be found on little Japan is insistently asking. Now isn't that a bit premature? There ain't going to be any sides.

## FINE LIVE STOCK SHOW

World's Fair Provides Most Liberal Premiums.

QUARTER MILLION DOLLARS GIVEN.

Classification on a Scale Never Before Attempted—Prizes For Horses, Mules, Cattle, Sheep, Swine, Poultry, Pet Stock and Dogs.

The Louisiana Purchase Exposition, in recognition of the magnitude and importance of the live stock industry, and appreciating that St. Louis, the seat of the World's Fair of 1904, is practically the geographical center of the largest improved stock-producing area on the globe, has appropriated a quarter million dollars to prizes for which the world's stockmen are invited to compete.

This vast sum makes possible a classification much in advance of any heretofore attempted, with prizes on a scale of generosity before unknown in the history of expositions. The largest sum previously offered by a like enterprise was \$142,000 at the Columbian in Chicago in 1893.

For the accommodation of the array of exhibits which will compete for the prizes offered, the management have allotted thirty acres of the most desirable ground in all the Exposition tract of over 1,200 acres, most of which it overlooks, and upon this hill will erect the requisite buildings, combining the desired modern features of utility and adaptation with harmonious and pleasing architectural effect. The building scheme will comprehend between forty-five and fifty structures, including thirty-five barns to accommodate eighty or ninety horses and cattle each, several others with slightly less capacity, four octagonal barns, 100x100 feet, to accommodate cows to be used in a dairy demonstration, with silos and feed barns, a grand amphitheater and arena, 250x450 feet, for

Kentucky expositors, then, will, of course, want to visit this great Fair. Their life will not be complete without it.

The Kentucky Exhibit Association is offering to pay the expenses of 125 of the most popular of this class of intelligent people to the Exposition. It proposes to send at its expense—railroad transportation, board at one of the best hotels in St. Louis and six days' admission to the grounds—some teacher from every county in the State. The popularity will be determined by looking.

an exhibit ring, and a building for public sales of live stock and for stockmen's conventions.

Cattle, sheep and swine, as with horses, will be given such a wide range of prizes as to reward generosity, independent of the specials given by States and breeders' organizations, the exhibitor, the breeder and the feeder, aggregating offerings so inviting that every man must attract the choicest products that pasture and feedlot, supplemented by human skill, have yet evolved.

One of the most interesting and important features planned for the Exposition will be a comparative test of breeds of cows with reference especially to their dairy qualities in both butter and cheese production, and incidentally their gains in flesh.

Poultry, pet stock, dogs and the minor animals and fowls are to be recognized more fully than has ever before been done, and every energy will be bent to have at St. Louis in 1904, along with the other magnificent arrays of the world's most interesting and best, the most extensive and instructive presentation of animal exhibits ever assembled.

Mr. L. D. Dorsey, President of the Kentucky Live Stock Breeders' Association is Chairman of the committee looking after Kentucky's exhibit of live stock. He and his committee expect to see Kentucky live stock very many of the prize.

## CHANCE OF LIFE TIME.

World's Fair Appeals Especially to the Educator.

GENERAL SCHEME ONE OF EDUCATION.

Kentucky Exhibit Association Offers to Pay the Expenses of 125 of the Most Popular Teachers to the Exposition—Contest in Developing Much Interest.

It is now conceded on all sides that the Louisiana Purchase Exposition in St. Louis next year will be the greatest event of the kind in history. Nothing ever before given approaches it, with the possible exception of the Columbian Exposition at Chicago in 1893, and the St. Louis World's Fair is to make even it look small.

There is no denying the fact that within the big buildings at this Exposition will be an entire education for those who seek it. The great Fair is not being built for any one class, trade or profession, however, but for every nation, every clime, every race. Still it will especially appeal to the educators of the United States, for the general scheme of the Exposition is education; every exhibit is to be installed with an eye single to teaching the visitor all that is to be learned by looking.

Kentucky expositors, then, will, of course, want to visit this great Fair. Their life will not be complete without it.

The Kentucky Exhibit Association is offering to pay the expenses of 125 of the most popular of this class of intelligent people to the Exposition. It proposes to send at its expense—railroad transportation, board at one of the best hotels in St. Louis and six days' admission to the grounds—some teacher from every county in the State. The popularity will be determined by looking.
